

✓ J'utilise des stratégies de calcul pour additionner trois nombres.

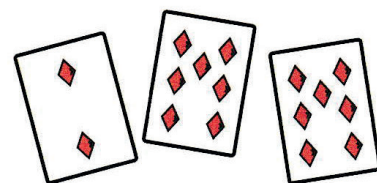

1 Calcule en regroupant les doubles.

$$\begin{array}{r} 6 + 6 + 2 \\ \hline 12 + 2 \\ \hline 14 \end{array}$$

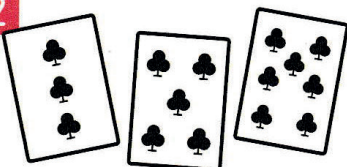

$$\begin{array}{r} 8 + 8 + 1 \\ \hline 16 + 1 \\ \hline 17 \end{array}$$

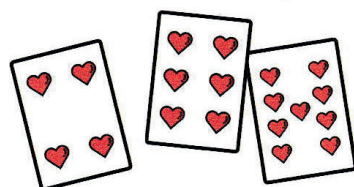

$$\begin{array}{r} 7 + 7 + 2 \\ \hline 14 + 2 \\ \hline 16 \end{array}$$

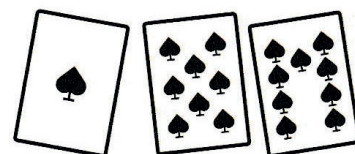

2 Calcule en regroupant les nombres qui font 10.

$$\begin{array}{r} 3 + 7 + 5 \\ \hline 10 + 5 \\ \hline 15 \end{array}$$

$$\begin{array}{r} 4 + 6 + 9 \\ \hline 10 + 9 \\ \hline 19 \end{array}$$

$$\begin{array}{r} 1 + 9 + 8 \\ \hline 10 + 8 \\ \hline 18 \end{array}$$

Trace à main levée.
